American Numismatic Society,  
Broadway & 156th. Street,  
New York City.

Gentlemen:-

Will you kindly apprise me at your earliest convenience what price you will pay to me for the following described Coins, i.e.-their intrinsic value and I will let you have them if your figure compensates within fair reason.

An 1826 Half Dollar, with Liberty Head, Date, and 13 Stars on one side, and on the reverse, Eagle, United States of America, E. Pluribus Unum, Shield, Arrow-Heads etc:-and "50¢" under Eagle, milled on inside of rims both sides, and on the rim, outside edge, "Fifty Cents, or A Half a Dollar" - the entire coin is in very excellent condition, in fact every feature is very discernable.

I also have some California solid Gold Coins, Octagon, and Hexagon shape. which I would consider opening up negotiations concerning.

I am not a collector of Coins in any sense of the word, neither am I a Dealer, but I will dispose of what Coins I have in my possession providing I am paid a just, and honest price for them.

In anticipation of your prompt, and authentic response, I assure you of my full consideration, solicit your coveted esteem, and await your prompt advice relative.

Yours very truly,

WSM/WSM.

*W. S. Morton,*
